

ARCHAEOLOGIST

Located in Monterey, EMC Planning Group Inc. has provided award-winning land use planning, design, land use entitlement, resource assessment, and environmental services to both public and private clients for 45 years. A detailed description of the services we provide, our company culture, and sample projects can be found at our website: www.emcplanning.com.

EMC Planning Group is currently seeking a Registered Professional Archaeologist (RPA) to provide consulting services on a wide variety of projects throughout coastal and central California. Duties will include archaeological surveys and monitoring, analysis of finds, preparation of cultural resource technical reports, and CEQA/NEPA cultural resource impact analyses.

Qualifications for the position include a Master's degree in cultural resources (archaeology, public archaeology, cultural resource management, etc.), qualification as an RPA, certification from an accredited archaeological field school that provides an understanding of theoretical and practical approaches to research design implementation, or have demonstrated equivalent experience. The candidate must have a minimum of three years' experience as an archaeological consultant in California. CEQA/NEPA compliance experience is required. Mitigation site planning, permitting, and monitoring experience are a plus.

We are looking for an archaeologist with clear and concise technical writing competency, proven project management and budget tracking abilities, strong proposal preparation/client interaction and marketing skills, regulatory agency permitting knowledge, and extensive field experience within coastal and central California, or similar geographical locations. The ideal candidate will possess patience, flexibility, and enthusiasm. We are looking for a team player with a professional attitude and cooperative communication style.

For consideration, please email your resume to robinson@emcplanning.com.
